

## **Contaminant Chemistry and Transport in Soil and Groundwater Training**

**January 25 - 26, 2006, 8:30 A.M. to 5 P.M. (2 Days)**

**Courtyard Los Angeles Old Pasadena**

**180 North Fair Oaks Avenue, Pasadena, California**

**Instructor:** Erick McWayne, Northwest Environmental Training Center

### **Description:**

This course provides participants with an overview of key concepts essential to understanding environmental contamination and provides a fundamental understanding of the release and transport of chemicals in soil and groundwater. This material is intended for environmental professionals who are not chemists, but who require a fundamental understanding of contaminant behavior and monitoring parameters for their work. This course is recommended for all environmental professionals working with contaminated soil and water with minimal formal training in this subject. The course material will greatly enhance on-the-job training. It is also recommended for project managers seeking a review of the subject.
